Headset Feature

The headset feature allows you to utilize the [Speaker] button to control the headset. Once the feature is enabled, pressing the [Speaker] button will no longer control the speakerphone, but will toggle the headset on and off.

Headset Mode

- 1) Press the pre-programmed "Headset Mode" button.
- 2) Press [0] to change to Headset Mode.
- 3) Press [Hold/Save] to activate

The [Speaker] button now controls the headset.

Speaker Mode

To return to the default Speakerphone mode:

- 1) Press the pre-programmed "Headset Mode" button.
- 2) Press [1] to change to Speaker Mode.
- 3) Press [Hold/Save] to activate

The [Speaker] button now controls the speakerphone.
